# Language Coaching Activities in Workplaces

A language coach is selected from within the work community and supports the development of Finnish language skills among employees with an immigrant background, and other members of the work community, for example, by promoting the use of easy language. The activities are aimed at workplaces that want to strengthen language-aware guidance skills and encourage a sense of belonging.

## Example in practice:

**1**

**Initial assessment**

**2**

**Workplace observation**

**3**

**Kick-off workshop**

Presenting the programme, an introduction to language awareness in the workplace, and needs assessment through workshop activities

**4**

**Workshop summary**

Implementing the measures

**5**

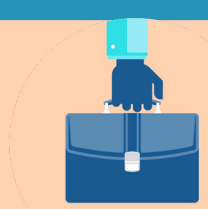

**Follow-up meetings**

**6**

**Summary meeting**

Feedback and evaluation
